

Jeanne de Montalembert

 [website](#) |  jeanne.de-montalembert@dauphine.psl.eu

RESEARCH FIELDS

First Environmental Economics, Development Economics
Second Health Economics, Agricultural Economics, Applied Economics

EDUCATION

2020 - present PhD in Economics at **University Paris Dauphine**
Advisors: Mireille Razafindrakoto, Anne-Sophie Robilliard, François Roubaud
2017 Master's Degree at **University Paris Dauphine**
International Economics and Development, research program
2016 Bachelor's Degree at **Université Paris 1 - Panthéon Sorbonne**
One-year exchange at Universidad del Salvador (Buenos Aires, Argentina)

TEACHING

Introduction to Development Economics 2021 - present
3rd year of BSc Economics, University Paris Dauphine
Impact Evaluation of Public Policy 2022
Tany Vao (Madagascar), Summer School
Microeconomics: Coordination and Interactions 2017 - 2018
2nd year of BSc Economics, University Paris 1 Panthéon-Sorbonne

RESEARCH

The Health Cost of Conservation: the Impact of Protected Areas on Child Health JMP
⊕ [Nils Westermarck Prize for Best Contributed Poster 2024](#)
Are conservation policies detrimental to child health? Using rich household surveys from 2008 to 2021 and a unique database on Protected Areas (PAs) in Madagascar, this study examines the impact of PAs on childhood anemia through a difference-in-differences estimation strategy. Results show that PAs reduce hemoglobin levels by 1.8 g/L—a 2% decrease relative to pre-PA averages. Although this reduction appears modest, it leads to a 6 pp increase in the occurrence of infant anemia. This negative health impact is driven by a rise in diarrhea and malaria, and partly by a reduction in the intake of iron-rich foods such as animal protein, despite improvements in access to drinking water and poverty reduction—but these benefits are limited to multi-use PAs. These findings underscore the complex relationship between conservation policies and public health, highlighting the unintended trade-offs that can emerge.

ACADEMIC ACTIVITIES

Refereeing

Journal of Applied Economics, Economie Rurale

Professionnal service

Co organizer of SDD - Séminaire des doctorant·e·s DIAL with Thie, M.

2023 - present

Co organizer of DIAL internal seminar with Bertelli, O.

2021 - 2022

AWARDS AND GRANTS

Honorable Mention in the T.W. Schultz Prize for Best Contributed Paper

2024

Nils Westermarck Prize for Best Contributed Poster

2024

ADRES grant program to young scholars

2024

Doctoral fellowship, Université Paris Dauphine

2020 - 2023

PRESENTATIONS

2025

** Scheduled*

ADRES Job Market Conference (Strasbourg), CEE-M Seminar (Montpellier), DeFiPP Workshop (Namur)*

2024

FAERE PhD Workshop (Annecy), EENR (Orléans), Dauphine Workshop in Econometrics and Applied Economics (Paris), AFEPOP (Paris), CEA (online), ICDE (Aix en Provence), Novafrika PhD Workshop (Lisbon), ICAE (New Delhi), FAERE (Strasbourg), NEUDC (Boston), DIAL Seminar (Paris)

2023

Dauphine Doctoral Days (Paris), GDE (Dresden), JMA (Strasbourg), EAERE (Limassol), ICDE (Paris), FAERE (Montpellier)

2022

PhD Workshop Université Paris Dauphine - Mines Paris Tech (Paris), DIAL Internal Seminar (Paris)

SKILLS

Computing R/Rstudio, Stata, QGIS

Languages French (native), English (fluent), Spanish (intermediary)
